CHRISTOPHER BOOTS

# BUCKY

*Inspired by Buckminster Fuller's geodesic Biosphère building in Montreal, Bucky is a striking pendant constructed from blackened steel and gilded in 24-carat gold leaf. Designed to hang in clusters, Bucky is best experienced at night when the subtle slithers of light emerge.*

## **MATERIALS**

Iron, Carbon, Gold, Polymer, Glass

## **FINISHES**

Matt black and white, gold, copper and silver leaf.

## **DIMENSIONS**

Ø 1100 mm

## **WEIGHT**

12 kg

## **LAMPING**

2700 K LED

## **DIMMING**

Optional
