

PROMETHEUS III

CHRISTOPHER BOOTS

CHRISTOPHER BOOTS

PROMETHEUS III

Prometheus III continues Christopher's exploration of classical materials including bronze, iron, copper and quartz. All around us our world shifts with perceptions of time and space. References to Atlantis, Ancient Greece and Persia, classical worlds almost forgotten in the mists of time, remind us that worlds can disappear almost without trace. Some stories transcend time and perhaps Prometheus has come to remind us of our gifts.

MATERIALS

Brass, Quartz Crystal, Copper, Iron, Polymer

FINISHES*

Hand rubbed brass, mirror-polished brass, dark bronze, aged or mottled patina, brushed stainless steel

DIMENSIONS†

Available from Ø 450 - Ø 2100 mm

WEIGHT

Starts at 5 kg

LAMPING†

2500-2700 K LED

DIMMING†

0-10 V

* Please discuss options with your dealer.
