CHRISTOPHER BOOTS

SUGAR STICK

A delectable crystalline structure unites natural stalagmite forms with childhood memories of the sugar stick candies made famous by the historic Raffles Hotel, Singapore. Warm light seeps through cracks and crevices, illuminating the wonderful imperfections of the crystals themselves and highlighting the natural beauty of quartz

MATERIALS

Quartz crystal, brass, iron, polymer, gallium

FINISHES[†]

Clear or smoky quartz crystal

DIMENSIONS[†]

Variable

WEIGHT

Starts at 5kg

LAMPING

2500K-2700K LED
