

DIAMOND RING 1200

Circles have had supernatural resonance since Antiquity, embodying concepts of continuity and completion. The magic ring draws power from its circular shape, an unbreakable border that both contains and concentrates energy.

In DIAMOND RING, quartz crystals appear to have bloomed from a circular frame. The crystalline growth radiates like magical residue, following the inward and outward flow of circular energy. Like an exploded geode, DIAMOND RING reveals the mysteries of nature.

Diamond Ring is a solid fixture that will require very little maintenance over the years.

If your Diamond Ring is treated with care, it will shine brightly for many years to come.

Quartz is a mineral formed by the Earth. Each crystal piece will be unique due to natural variation of size, shape, colour and clarity.
