

PYTHAGORAS CRYSTAL TWIN 600

Pythagoras, the revered philosopher and mathematician believed that the mysteries of the physical world could be revealed through Mathematics. For Pythagoras, numbers had mystical influence and could be harnessed to achieve balance and beauty.

PYTHAGORAS CRYSTAL TWIN draws on the insights of its namesake, invoking a calculated harmony in the meeting of light and geometry with a crystalline edge.

PYTHAGORAS CRYSTAL TWIN 600

SPECIFICATIONS

Pythagoras Crystal Twin is a solid fixture that will require very little maintenance over the years.

If your Pythagoras Crystal Twin is treated with care, it will shine brightly for many years to come.

Quartz is a mineral formed by the Earth. Each crystal piece will be unique due to natural variation of size, shape, colour and clarity.
